

7521701395.txt

I am so tired that the spirit that this country was founded on - of, for, by the people - is being ignored. Listen to the people. The self-interested "cheater class" rules over common sense and the public good.

Keep Net Neutrality! America's competitiveness, our future depends on robust, fair and free access. Reclassify ISPs as common carriers. This is the ONLY way to protect real Net Neutrality
