Benjamin	Martin	
Mary	Martin	
Chris	Martin	
Marty	Martin	
Tom	Martin	We must retain net neutrality. The FCC must look out for us, the little guys. Do not allow the wealthy corporate giants to have an upper hand here. They already have too much influence, too much power.
Maria	Martinez	Is there no limit at all to corporate greed? Now, they want to impose all sorts of internet delays upon domestic users, just so they can make more money. We wont get a cent for what they want to do to us; if anything, our Verizon bills will SOAR!
Sylvia L.	Martinez	Please do not allow communications corporations to fast track internet regulations to their favor. People need the freedom and availability of true net neutrality!!!

Claudia	Martinez	
Kirk	Martinez	
Carol	Martin-Hay	Big business has enough. We need and deserve net neutrality.
Gary	Martoni	Leave the internet alone. We don't need more corporate interference to the free flow of information.
Joan	Martorano	
Lucile	Marty-Link	
Mary Elizabeth	Marx	Everyone needs equal access. It helps communication stay free and engages more in the dialog and allows all the same opportunities. Don't let money talk.
Gerald	Marxman	
Daniel	Marzani	A strong internet is, at it's core, unrestricted access to information regardless on it's topic or source. Support a democratic internet when all consumers and producers of content enjoy equal representation. ISP's should serve the people. Thank you
Jeff	Masco	
Judith	Mascolino	Don't end our last vestige of freedom of speech!
Khair	Mash	Our Constitution states clearly that we are created equals. And that applies for the Internet. The Internet is our best educational apparatus. Please keep it for all of us. Thank you
Anna	Mashevich	
Howard	Masin	
Maria	Masland	
Geraldine	Maslanka	I am very concerned that adopting rules that would allow corporate telecom titans like Verizon and Time Warner Cable to sell fast lanes online to the highest bidder would mean fast lanes for the few mean slow lanes for everyone
Gordon	Mason	Comcast bought out the FCC? Really? What about the people? No fast/slow lanes, Net Neutrality needs to be maintained, not obliterated because of greedy corporations and blind bureaucrats!
Theresa	Mason	If the FCC allows this corporate advantage to the information highway Internet, it will make a shambles of the terms 'free speech', equal access, equal opportunity, and democracy. This is a catastrophe waiting to happen. Don't betray America. Stop now!
Marty	Mason	Support true Net Neutrality and maintain equal access to the internet for everyone, from individual citizens to multinational corporations.
Christopher	Mason	The internet should remain fair for all users.
Jeff	Mason	
Barbara	Mason	
V.	Masse	Look at what wonderous things have happened in our country, in education, commerce, research, all using the internet as it is now. If it's succeeding so well, why tamper with it just to give the corporations (people? really?) another advantage?
Janie	Massey	Haven't we the people lost enough of our rights and freedoms? We are trying to recover our economy, many have lost jobs and vets are having trouble adjusting to a life back here. I say ENOUGH!
Eileen	Massey	
Cindy	Massey	
Robert	Massey	
Shirley	Massey	
James	Massey Nmd	Internet needs real net neutrality!
Shehrever	Masters	
Matthew	Mastrogiovanni	The internet was not made for profit, it was made to share information AND INFORMATION WANTS TO BE FREE!!!
Rob	Mastroianni	Free the internet. NET NEUTRALITY!!!!!!
Carol	Masuda	
Mike	Matcho	
Rabihah	Mateen	Net neutrality is essential in this digital age. Anything less will be a disadvantage for those of modest and meager means. It's an essential right, a human right. Keep it open and free to all.
E.	Mather	
John	Mathews	No one wants separate fast lanes except for the ultra rich. Please act in the best interest of ALL the people, not just the top 1%!
Rosalind	Mathews	There are precious few places where everyone has the same chance. The internet is probably the biggest of those places. Please do not make this another place where you have to have more money in order to get decent treatment.
James	Mathews	These internet companies started this ball rolling with the offers of high speed internet and promises of instant access. Now they want to change the rules of the game now that everybody has climbed on board. It's not fair.
Mary	Mathews	

Mary	Mathieu	The FCC has no right to infringe upon my rights
Georgeanne	Matranga	I oppose the FCC's proposal to allow big telecoms to charge extra for carrying content. It would destroy Net Neutrality and undermine our democracy. The only real way to ensure Net Neutrality is to reclassify broadband as a utility.
P.	Matson	Small businesses, all internet users, and our democracy depend on open and neutral use of the internet, meaning NET NEUTRALITY. The internet should be considered a common carrier. Thank you for your attention to our needs!
Gregg	Matson	
Patricia	Matteson	If we privatize the Internet we lose part of our soul, our democracy and our welfare. Period. FCC just do the right thing. Put people over profits.
Dan	Matteson	Net neutrality IS part of our freedom in America. It should remain neutral!
Rachel	Matthews	The FCC is supposed to look out for the interests of CITIZENS NOT corporations acting as if they were citizens meanwhile abusing us at every turn and not contributing to the tax or general welfare of the states in any way. Do YOUR job, save the internet.
Georgia	Mattingly	
Laurie	Mattingly	
Flora	Mattis	
Hiroko	Mattsson	It is bad enough that the U.S. lags behind most Western nations in internet speed; but to let the telecom giants control the rest of our internet is going too far. Our tax dollars developed the net; keep it public.
Mary	Matzek	According to the constitution, all men were created equal. The internet has been an engine for business like no other. Neutrality will help small businesses and ordinary people. Cable and telcom companies should not have special privileges.
Pamela	Matzke	We need REAL internet neutrality.
Robin	Maule	
George	Mauil	
Jane	Maupin	For the public good, please keep real net neutrality.
	mawest06	
William	Maxwell	Save the Net!!
Eric	Maxwell	The internet needs to continue be open to all users equally!!!!
Lawrence	Maxwell	
Jim P	May	Do you value your family's freedom?
Margaret	May	For the precious little individual rights we Americans have left, we fight for Internet freedom for the common person! Keep the Internet free of control by corporate entities. I strongly protest this intrusion into our privacy!
Brent	May	Please protect this multi-use communications medium as a resource for all to use. Internet providers need to make their profit, but not at the expense of large differences in service levels.
John	Maybury	Equal Internet for all!
Carol	Mayer	Don't get bought out!
Marya	Mayer	This is so important. We NEED net neutrality.
Charlotte	Mayerson	
Amy	Mayhall	The possible affirmation of the fast lane online rule is an insult and illegal control.
Sarah	Mayhew	
Steven	Maynard	Net Neutrality!
Lawrence Dean	Mayotte	We the People....do not want the internet to become another corporation run for profit by the government nor any other corporate entity! I should remain free and open to everyone with no charges what so ever!
Dominique	Mazeaud	
Armeney	Mazian	We taxpayers funded the government's development of the internet. Now it is to be given to Verizon and Time Warner who will profit from it and make us pay for using it? This is not the American Way that I was taught. NO!!!
Frank	Mazuca	All of us in this house depend on a free and open internet.
Laurie	Mazza	
P.	Mazzulo	
John	Mc Cabe	in the springtime of the internet the fields were fecund with the wonders to come, they waited and baited the traps. hibernating mice, drunk on the spring air, entered the traps, gorged and found they were too fat to back out. don't be a fat mouse
Frank	Mc Cune	
William	Mc Guire	
Francine	Mc Lean	
James	Mc Pherson	Please do not vote for fast lanes on the internet.

James	Mc Quillan	We need a free and open Internet. Not one that is either controlled by our Government or by Big Corporations.
Bill	Mcafee	Internet neutrality is a must if we are to have any chance to restore democracy to the U.S.
Diane	Mcavoy	
Timothy	Mcbride	
John	Mccabe	Keep the internet equally accessible to all Do not let money make it two tiered
James	Mccall	Simple fairness calls for you to maintain net neutrality. The Internet should serve all equally, and not be controlled by the rich corporations. Please protect the people.
Kate	Mccall	
Cindee	Mccallister	The internet is the "free press" of this century. We need to do everything we can to maintain free, unbiased access, otherwise democracy is dead in America and we are on the way to a plutocracy.
Anna	Mccall-Tanzola	
Tom	Mccalmont	Please preserve a level playing field. The Internet is a public utility, and access should be fair and equal to all, similar to the telephone or electric utility networks.
Shannon	Mccarl	
Dale	Mccart	Break up the big 5, we need faster speed for less not slower for more.
Paul	Mccarthy	keep net neutrality, do more to regulate major telecom and cable companies, do not allow further consolidation in this oligopolistic industry.
Barbara	Mccarthy	The Internet is a vital lifeline for seniors as for almost all middle class and poor people. Please do not prevent this vital utility from being the important tool it is to the majority of Americans by allowing it to price too many out!
Susann	Mccarthy	
Michael	Mccartin	
Chris	Mccarty	
Dell	Mccarty	
Ernest	Mccarus	PLEASE--We need real Net neutrality!
Forrest	Mccaughn	If the Big Boys get their way, the public will have to pay for the increased speed for their products and have slower speed for our use. If the Big Boys want a faster internet, let them build their own internet.
Brandi	Mccauley	
Charles	Mcchesney	Do not allow money to trump reason, equal access and up/down speed for all those using the internet. Do not allow mega-companies to buy higher speed for their data or messages. thank you for listening to the PEOPLE!
Evelyn	Mcchesney	Please re-categorize internet services. That is the only fair solution.
Harriet	Mccleary	
Annette	McClendon	
B	Mcclintock	
Joseph	Mccloskey	The idea of disbanding Net Neutrality, only to further the profitability of already extremely well-heeled telecom giants is, in a word, obscene. This proposal hurts the american public at large, the very group that the FCC exists to protect.
Patrick	Mccloskey	
Daviann	Mccclurg	Dear FCC, What happened to free and open access for anyone who would like to have it? Regardless of how much money they have. Don't make this country more about the 1%.
James	Mccomas	
Kimberly	Mconkey	
Joseph A Jr.	McConnell	Please: not another corporate victory at the expense of everyone of the rest of us!
Maureen	Mccoog	All of the American people should have & enjoy REAL net neutrality.
John	Mccool	Please act as the guardian of citizen's rights to the airways and refrain from selling off the internet to the highest bidder. We as taxpayers funded the creation of the original infrastructure of the internet, so isn't it ours? Thank you...
Sharon	Mccord	There are so many unfair things in the United states. The rich people buy their legislators and write legislation in favor of continuing to make more billions for themselves. Can't we at least keep the internet fair for everyone?
Douglas	Mccormick	
Susan	Mccorry	
Linda	Mccourt	
Lois	Mccoy	
Carol	Mccoy	
Gail	Mccredie	Please allow all internet content equal speed.
Art	Mccue	Reclassify the Internet as a public utility...NOW!
Gary	Mccuen	Do not sacrifice common good for Corporate greed.
Nancy	Mccullough	Net Neutrality is essential to democracy.

Richard	Mccullough	
Chris	Mccully	
Peter	Mccumber	
Jessie	Mcdade	
Lynda	McDaniel	
Chris	Mcdermott	I am urging you to stop the unprincipled giving away of public space to private firms which is not in the public interest. Your children and grandchildren would appreciate,your stepping up to protect our interests in a free and equal access
Don	Mcdermott	The internet needs to less of a corporate enterprise and more of a public utility.
Patrick	Mcdermott	The internet was designed to be an open platform, full of potential for all. We have only gotten to the point we are at today because it has been open and neutral. If we wish to continue this trend, we need to keep it that way.
Michael	Mcdermott	
Patricia	Mcdonald	
Bob	Mcdonald	
Deirdre	Mcdonald	
Albert	McDonnell	We need REAL net neutrality. Do not allow the deep-pocketed telecom and cable companies to move their online content at top speed, consigning nonprofit, independent and dissenting voices to the slow lane.
Susan	Mcdonough	Reject rules to allow Verizon and Time Warner Cable to sell fast lanes online to the highest bidder. Fast lanes for the few mean slow lanes for everyone else, which would confine alternative, independent, and non-profit voices to the second tier.
James	Mcdowell	Keep the internet neutral!
Mabel	McElhaney	We regular folks already have our internet access rationed and our TV decimated by Time Warner's exhorbitant prices. Instead of making our situation worse to benefit those who don't need it, reclassify broadband and TV as public utilities.
Brigetta	McElvogue	I'll pull the plug on the Internet permanently. And while I'm at it I'll do away with my credit card also. I won't be needing it. Obama said he's for an open Internet, lets see if he's going to lie about this also!!!
Melinda	Mcgee	Let's keep a level playing field.
Martha	Mcghee	No fast lanes. Net net neutrality please. Thank you for your time.
Don	McGill	LEAVE THE INTERNET ALONE! STOP TRYING TO FIX WHAT IS NOT BROKEN !! NO. NO. NO.
Ann	Mcgill	The internet is the main communication for the average person, from student to senior. It has to be available without special interest groups taking it over to charge fees to enrich themselves and deny health, and information to the rest of us.
Michael	Mcginley	I support the concept of net neutrality. The open internet is now essential to democracy and freedom. Please remember your duty to represent what is best for all the citizens, not just those rich enough to buy influence.
Christie	Mcginn	
Colleen	Mcglone	
Mark	McGlothlin	The Internet is a public resource, and should be kept neutral.
Richard	Mcgonagle	I cannot believe you could even consider such a preposterous notion. These systems belong to the people. You cannot allow to be sold what doesn't belong to them.
Alice	McGough	
Steve	Mcgough	Without Net Neutrality America will be unplugged!
Laurie	Mcgovern	net neutrality is key to the internet working for All people.
Patricia	Mcgowan	Keep Net- neutrality.
Richard	Mcgrain	This would also hurt the Democratic Party. We use the internet far more than the GOP and this would slow down, if not stop, our message.
Bill	Mcgrane	
Stacy	Mcgrath	I live as a shut in high speed internet is how I pay my bills.Get the things I need.Selling things like this to the hijest bidder is wrong the internet is for all of us not just for rich corperations
William	Mcgrath	We are very very concerned that the big corporations will monopolize the power of the internet and leave the rest of us behind. Give the "little guy" a chance to get ahead, please!
Annette	McGregor	I strongly believe that the internet needs to remain neutral. Big money has corrupted so much already (including politics); PLEASE keep it's sway out of the realm of the internet.
Jack	Mcguire	
Chari	Mchale	Please keep access equal.
Margaret C.	Mchugh	I believe the Internet is a public utility and should be for the benefit of all the public.
Shannon	Mchugh	The internet should be an equal and fair playing ground. Having faster speeds should not depend who can pay the most.

Ashley	Mcintosh	Slowing down progress for everyone to favor a few wealthy companies is asinine. Doing so for an excess of financial gain is corrupt. I'd like have some more money too, but seeking to punish those who can't pony-up is wrong. Period.
David	Mcintosh	The Internet has thrived due to openness so far -- let's preserve the level playing field!
Phyllis	Mcintosh	
Patrick	Mcintosh	
Barbara	Mcintosh	
Dennis	Mcintyre	Please do not open up the internet for just those individuals able to pay more. It is very unfair to those individuals who are unable to afford these additional fees.
Misty	Mcintyre	
Matthew	Mciver	Part of the role of government is to protect the majority of the citizenry from exploitation by the wealthy and powerful. Net neutrality is the expression of this core responsibility in the digital age, the job of the FCC and a clear public good.
Ronye	Mckay	If its working don't fix it! This is working just fine and doesn't need fixing. The question is WHY would you want to do this?? This stinks of a lot of money being tossed around! Not good.
Adam	Mckay	
John	Mckean	The internet is the only hope for an educated and informed electorate. The current transfer of education to all people via the internet should not be constrained in any way. Government interference is the WORST POSSIBLE POLICY.
Jean	Mckee	I'm already paying for 'fast' internet - IPs should not be able to collect from both ends, users & smaller CPs should not be punished for their greed.
J.	Mckee	Once a level playing field, more or less, is about to shift in favor of large media companies that already hold too much sway and monopolies in our communities. Please don't add to the fray by these rule adoptions. Thanks!
Theodora	Mckee	
David	Mckeeper	Don't turn over control of the internet to corporations. They are not good stewards of anything that is positive for Americans.
Kevin	Mckelvie	
Marion	Mckemie	Please keep the internet equal to all. This is very important.
Richard	Mckendry	
Michael	Mckenna	
Becky	Mckibben	
Linda	Mckillip	Not 2 lanes, just one lane that everyone uses. Keep the Internet open for all.
Micky	Mckinley	The internet should remain an open and public space with equal access for all.
Judy	Mckinney	
Joanne	Mckray	Don't allow the one-per cent to dominate the internet!
Joseph	Mclain	This is not good for the public stop it now
Laurie	McLaughlin	Not right. Don't do it.
Rohana	Mclaughlin	The President has talked about the importance of internet accessibility for all, I hope the FCC we take that into account and vote for equal accessibility for all.
Robert	Mclaughlin	This would amount to censorship on a grand scale, and thought control
Christopher	Mclaughlin	
Dr.	McLaughlin	Why are you participating in a moneyocracy?
David	Mclean	Please maintain the democracy of the internet.
Susan	Mcleary	This regulation of internet is a violation of the First Amendment....and this is why we need to PROTECT NET NEUTRALITY.
Miriam	Mcleod	All Broadcasters should be on same footing; do not favor some over others.
Carol	Mcleod	If the FCC's plan to allow fast lanes for the few goes forward, the rest of us will suffer. The deep-pocketed will pay to move their online content at top speed, consigning nonprofit, independent and dissenting voices to the slow lane.
Dave	Mcleod	
Jaesa	Mclin	
Jeffrey N.	Mcmahan	My internet access is already strangled by a major telecom provider. I frequent a great many boutique sites for specialized items and would hate for access to them to be diminished in favor of a corporate site.
Gwen	Mcmahon	This is a free speech issue and should NOT be subject to a corp with big money affecting internet service (any aspect of it) to anyone who has the capacity to use it!
Sandra	Mcmahon	
Amy	McMahon	
Mara	Mcmanus	I have read that the big corporations are getting the preferred fast lanes, but corporations are people. Unless you have managed to overturn the Citizens United decision, people are people. So you can't have it both ways.

Philip	McManus	Keep the internet free and equal. No privileged access to those who can pay for it.
Eric	Mcmanus	Please heed the voices of average Americans and do everything in your power to preserve net neutrality. The telecoms and internet corporations are becoming too powerful. Make a stand for the people.
Dick	Mcmaster	
Jeff	Mcmillan	Internet should be like a utility and there should be net neutrality.
Evelyn	Mcmullen	
John	Mcnelly	Please maintain net neutrality. Keep internet open access for all.
Jerry	Mcnamara	Democracy requires an open internet. Seeing what has happened in countries that restrict access makes this very clear. Do not change the rules...
Andrew	Mcnamara	
Nancy	Mcnamara	We want net neutrality, not policy dictated by big business and money
Joseph	Mcoscar	
Cynthia	Mcpeak	Open internet for ALL. The people and democracy demand it.
Paula	Mcpheeters	
Neil	Mcqueen	
Christa	Mcreynolds	Dear Members of the FCC, please don't allow for 2-tier access to the internet. Christa McReynolds christam10@icloud.com
Mike	Mctague	Why does gov't ruin everything that works? The nation is collapsing under its own weight. Or is this a plan?
Donna	Mcwhirter	More and more the richest and corporations of this country take from those who do not have the assets. Although I am 75 years old and just beginning to discover the usefulness and fun of communication. Don't limit me.
Barry	Mead	Preserver Net Neutrality. Don't have fast and slow lanes on the Internet! Without net neutrality, the Internet will begin to resemble "Pay Per View" television. All of the rich diversity of the internet will vanish!
Fred	Meade	
William	Meagher	Keep the internet neutral. We all need equal access.
Sean	Meara	
Andre	Meaux	
Shannon	Meckley	The internet must be kept as an open, free exchange of ideas and opinions. No person or persons or any entity should be able to influence its openness in any way.
Manor	Mediano	Please leave us our internet and let us common hard-working folks without a big at least keep that..
Rob	Medley	I cannot fathom that this is even a discussion. Not having net neutrality is akin to big oil, coal, and the staunch top 1%. When will you stop? ...when the middle class is absolutely nearly extinct in these, OUR United States of America. Have a heart!
Tony	Medlin	
Stephanie	Medlyn	
Gil	Medovoy	
Jean and David	Meek	Sir/Madam: Please support real net neutrality, Do not allow fast lanes for the wealthy and powerful few. Consider analyses by organizations like Common Cause and Public Citizen. Thank you for your consideration!
Simone	Meeker	Hands off the net, please. We need real net neutrality.
Amanda	Meers	
Raymond	Meester	Please do not allow a few to offer their online content at top speed, and relegating the slow lane to nonprofit, independent and dissenting voices. We need REAL net neutrality.
Maureen	Mehler	No special privileges for big corps over private individuals.
Jeffrey	Meissner	Net neutrality allows everybody an opportunity, be it in business, education, entertainment, or freedom of information. Net neutrality protects freedom of speech. We must not allow some entities or individuals have greater influence based upon a fee.
Thomas	Meizinger	I do not want a two tier internet!
Marianna	Mejia	
Nick	Melander	An even field for competition between established and new innovative websites is best for the growth of the net. Its not in our interest to enshrine any status quo. The use of eminent domain to put the telecoms wires into the ground has not been answered
Sandra	Melchor	
David	Meldrum	
Catherine	Melina	
R.	Mellen	
Sandra	Mello	I demand an Open Internet and that you won't settle for less. I am extremely concerned about how this will affect small businesses. I am employed by a small business.

Marie-Elena	Mello	The intent of the internet is to make information and access available to all, regardless of status, nationality, perspective, philosophy, religious beliefs. In short, to be all-inclusive. It is imperative that this intent is fulfilled
Mael & Sophia	Melvin	To permit a fast lane for some internet providers is shockingly unfair to the general citizenry and to the ideal of a true democracy. We are fast losing our greatness as a country.
Polly	Memhard	The beauty of the internet is that it belongs to all; it should not be monopolized and sold, depriving us of net neutrality.
Al	mendelson	
Javier	Mendez	
Anthony	Mendousa	
Michael J	Menzie	
Melissa	Meriwether	I will be brief - monopolies and the characterization thereof are - and need to remain - illegal in this country. Make it so!
Karynn	Merkel	
Byron	Merrick	Adding a Fast Lane to the Information Super Highway is in actuality, going to add "tolls" to commuters who use it. Please keep this highway open and free.
David	Merrill	I've already eliminated television from cable and satellite dish from my life. If there are fast lanes for wealthy companies this would make me consider going off line entirely. Keep the internet free and equal!
Benjamin	Merrill	Net neutrality represents the best use of computer science for the advancement of humanity. Why would you ruin an existing world-wide beneficial miracle to satisfy the greed few?
Theodore	Mertig	
Ronald	Messina	Keep the internet open and free
Mark	Messing	
Linda	Messner	This is and should ALWAYS be for WE, THE PEOPLE and we, the people should all be given equal service.
Thomas	Metcalf	
Melodie	Metje	Companies are not more important than people; keep the internet the same for all!
Thomas	Metke	We need Real net neutrality !!!
E.	Mettam	global internet freedom is essential to a free society - restrictions will lead to tyranny of the populace by the wealthy
Lindy	Metz	Don't let money buy this!
Emily	Metz	If it's only for the few, how can it possibly be profitable?
Howard	Metzger	
Amanda	Meuche	
Dorothy	Meunier	Please keep the internet free and equal access.
Paul	Meyer	Don't discriminate against the small person in favor of the biggies. The internet should be equally for all users. PAUL AND ALICE MEYER
Paulette	Meyer	Free net neutrality is the democratic and American approach to internet accessibility. Please maintain a neutral not cash-driven internet.
John	Meyer	Make the internet airwaves a public utility. It is the peoples airwaves.
Mark	Meyer	Protecting the barrier free internet = protecting free speech. No pay-for fast lanes should be allowed; it is just a ruse for big media companies to create a pay-for internet.
Brett	Meyer	The internet MUST stay free to ensure the 1st amendment
John	Meyer	
Patricia	Meyer-Peterson	
Nancy	Miani	Allowing fast lanes for the few will further the hold that large corporations have on our country, diminishing democracy.
Gina	Miccio	We need REAL net neutrality. My only cable option currently is Comcast. Often times, I feel I would get better & cheaper service in a third world country, and I have NO recourse because it is already a virtual monopoly. Stop siding with big biz!!
Gregory	Michael	Don't censor the only remaining space of freedom. Our intelligence, livelihood, and connectedness has improved so much since the 1990s because of this freedom, please do not reduce it to television.
Michael	Michael	Freedom and democracy depend on open and equal rights to the forum for discourse. Leave the Internet as an equal forum for all.
Sandra	Michael	The internet is an service (like water) and communications tool (like phone lines) that must be kept open and equal and not sold to the highest bidder. People's lives and livelihoods depend on this. It fosters entrepreneurs and builds strong economies!
Wills	Michael	
Joseph	Michael	

Tina	Michael-Dahlmann	
Raelyn	Michaelson	
John	Michal M.D.	I support only 100% net neutrality.
Debra	Michaud	Let's be fair here....keep the internet fair for everyone. If you adopt this, it will just be another example of the rich getting it all!
Jacques	Michel	
Barbara	Michelini	The internet must remain free and equal. When this goes, the end is near!
Paul	Michels	Net neutrality is key to future American economic growth. Without it, our recovery from the recession will slow.
David	Michener	
Sara	Michl	
Craig	Michler	PLEASE don't give in to Corporate dollars! Let's keep the playing field even.
Barry	Michlin	
John	Michno	
Joseph	Micketti	The internet is open and free always and forever.
Evelyn	Mickevicius	The internet was developed with the help of government research, government money - which means taxpayers money. Companies should not be privileged to get faster service, just because they can buy our officials.
Evalee	Mickey	The change proposed will make it. Much more difficult for lower income people to use the internet
Kip	Micuda	The internet, in all its forms,even its machinations, is for all, not a few.
Gigi	Middlebrook	Please help us maintain net neutrality. If it is not maintained everyone will pay for it including foremost the cable customers. Please, please, please keep our net neutrality!!!
Edward	Middleton	We are small business owners who depend upon the Internet hourly.If anything, we need faster connections not second class service. Do the right thing!
John	Midkiff	
Peggy	Midling	Too much already is being given away by government action to the wealthy segment of our population. Please don't give more to them.
Cory	Miedema	Keep the internet free as it is now!!
Timothy	Mieyal	
Vladimir	Mihailovic	
Dorothy	Mikos	Let's keep the Internet free for everyone. Don't make second class citizens of the poorest people in our country.
Juanita	Milam	Please keep the Internet free and preserve the voice of those who have less money than others. Please do not let commercial interests over-ride the free flow of information.
Ruth	Milburn	the internet is already overloaded by commercial interests. At least I can choose not to act ontheir advice; but if I never see real communication for the high-volume noise big spenders can make, the power of grassroots innovation is lost.
Jennifer	Militzer-Kopperl	Can't believe you are even considering this. Talk about corporations over human interests. If I made myself into a corporation, would you listen to me, or would I have to donate a ton of money first? Net neutrality forever.
Andrew	Millard	The Internet should be classified as a public utility!
Jean	Millay	Free speech access is a utility for all. Don't let the corporations own them, as they do the congress and the Supreme Court.
Jerre	Miller	A free & open internet is the only way.
Shirley	Miller	Absolutely unacceptable. Don't allow further disresepct to be fostered on the populace that is less than wealthy. It is devisive.
Alex	Miller	Americans need strong net neutrality rules and reclassification of broadband as a Title II service.
Anne	Miller	Corporations and their rich owners are being given more and more power by the Supreme Court to control individuals and the political process. Our 1st amendment rights to free speech and equal access is erased if we lose net neutrality.
Caroline	Miller	Do not be party to such destruction of Freedom to the US citizens!
Jason	Miller	Do the right thing. Protect net neutrality. Save the internet, save the world.
Albert	Miller	First, a corporation was declared a person. And now that person is flipping its mask and shows its true identity as a corporation ready to steel the internet from the those who are real persons! Please don't do this!!
Stephen	Miller	Hands off the internet.
Richard	Miller	It is time to look out the average internet user and not the users with deep pockets that will buy up all the online time .

Mark	Miller	It's bad enough we have these so-called 'providers' who play games with speed issues on a daily basis, not delivering what is purchased, but now they want to hold this country ransom? Put a stop to this now, please.
Jerry	Miller	It's supposed to belong to everyone, not just the big guys.
Meryl	Miller	Keep the internet open and equal to all.
Elizabeth	Miller	Leave your hands off the internet - you are messing something that was meant to have all people/users equal. This is corporate greed to an all time high
Ruth	Miller	Please allow us to have decent reasonably priced Internet services. The companies benefited greatly from tax payers they shouldn't be able to crush us financially. Why can't we do as EU countries do? They provide fast service to EVERYONE at low prices.
John	Miller	Please DO NOT allow corporations to establish a two-tier system on the Internet. Free Internet for all US citizens is the most democratizing creation in the history of the United States.
Robert	Miller	Please do not allow faster vs slower lanes of internet traffic. Equal access and speed will keep this country free and equal to all.
Pris	Miller	Please preserve Net Neutrality. Thank you.
Willis	Miller	STOP your greedy thoughts and leave the internet alone!

Maria	Miller	WE NEED to keep the internet FREE!! As special interests are buying ALL other Media sights, the PUBLIC NEEDS to get UNBIASED information and facts to know how to use their time and VOTES!!!
Shirley	Millican	Remember "All men are created equal"? Why should you 'punish' anyone because they can't afford a "fast-tracked" internet?
Tulsi	Milliken	
Larry	Millner	
Susan	Mills	Allowing big companies to control what is seen/read on the internet is denying citizens a full array of thoughts and opinions. All telecom and cable companies should be treated equally.
Edward	Mills	
Michael	Millspaugh	If you want to charge video content extra for its higher use of bandwidth, you have to separate the ISPs from the content providers. As it is, top-down consolidation will strangle innovation and lead to higher prices.
Burris	Millstone	
Rick	Millward	Corporations aren't people; only people should control the internet through our representative government.
Todd	Milner	The Internet belongs to the people and fair and equal access needs to be maintained. Do not allow access to be monopolized by your corporate buddies.

Tom	Miscik	we need REAL net neutrality.
Ayoub	Misherghi	Corporations want to interfere with our freedom of speech and freedom of information that are guaranteed by the constitution. Everything on the internet should be equally accessible to everybody without disadvantage.
William	Mitchell	Don't give away our internet. Lest we forget, the internet was developed with taxpayer money. I fail to see the value in giving control over to corporations mandated to serve US who will use their control to limit our access.
Logan	Mitchell	I am in favor of an open internet, without fast lanes or slow lanes. All internet traffic should be treated equally.
Ina	Mitchell	I live on Social Security, which barely covers the necessities. I can't afford to pay more. I'm an animal activist and spend several hours a day on the internet. Don't let major telcom and cable companies take control.

Kyra	Montagu	In my view this is contrary to the exact purpose we have an FCC; to protect the communication of the public against individual or corporate appropriation and exploitation at the expense of public rights.
Joe	Montalvo	
Steve	Monteleone	In this era of increased corporate influence over our government, the people cannot/should not be silenced. If net neutrality is not upheld, it would help suffocate American democracy. WE CANNOT SUFFOCATE OUR DEMOCRACY!

A. Christopher	Moquin	The little guy made the Internet and, by not participating with any of your big money telecom and cable companies, the little will take it down.
Lauren	Mora	Without the Internet I would not have been able to complete my university degree. If high-speed Internet is only available to those with money, it will penalize the students who depend on it for their research. Please keep the Internet equal for all.
Margo	Morado	The net is a near-perfect tool of democracy in action. It needs to be free and available to all.
Joseph	Morales	Please say no to a censored Internet controlled by a few moneyed interests. Instead, express your support for the freedom of expression that made this country great by preserving Net Neutrality.

William	Morton	We need to keep our free internet as it is today.
Alexandru	Moscu	IS THIS A FREE COUNTRY OR WHAT???
Ruth	Moser	
Ann	Moses	We need REAL net neutrality, not the fake neutrality being proposed, not any fast lanes!
Dan	Moseson	The open internet is vital to democracy in the modern world. You must not sell it out to corporate control.

Peter	Mulshine	
Lori	Mulvey	
Carla	Mummer	
Katherine	Munday	Just a simple please and thank you !!!
Norm	Mundhenk	I do not understand what advantages consumers will have if companies are given financial incentives to reduce service to ordinary customers. It is a bad and unfair idea, and it will mean giving a few companies excessive control of the internet.
Joseph	Mungai	Allowing internet monopolies to set prices for speed of access on the poor and politically invisible is discrimination.
Julio	Munoz	
Gordon	Munro	
J.	Munson	The internet should be available to all citizens equally regardless of economic status. It is only fair.

Wendy	Murdoch	
Troy	Murphree	
Sarah	Murphy	As a college student, I rely on the internet for paper sources, contact with teachers, scholarship oppertunities, and even day to day homework. Internet fast lanes could make these tasks impossible for those unable to afford them.
Brian	Murphy	I am in favor of fair prices and non-discriminatory access to the internet. Please do not change the rules in a way that permits the monopolies that serve individual consumers to set prices as they see fit, regardless of their customer's preference.
Colin	Murphy	It is critically important for economic development, innovation and the democratic process to NOT allow selective speed content access. Preserve true net neutrality by NOT allowing a tiered system.
Michael	Murphy	No internet fast lanes! I agree with Michael Copps: ISPs should have common carrier status.
Lisa	Murphy	Please stop screwing middle America!
Dana	Murphy	The very concept of fast internet lanes for a few and slow for the rest is abhorrent in a democracy. The fact that it is even being considered is deeply disappointing.
Daniel	Murphy	There is no ethical argument to be made for allowing enormously rich corporations such unimaginable magnitude of control over society! This conversation is a moral outrage! How dare you even consider this?!

Neil	Murray	The Internet, the greatest tool for communication and 1st Amendment democracy in my lifetime of 64 years, and developed with tax payer funding, should remain neutral, that is, one speed access for all users.
Arthur	Murray	This is no different than establishing 'fast lanes' on our highways for use by large corporate carriers. We must protect small businesses and insure fair and unrestricted internet.
Cynthia	Murray	
Maureen	Murray	
Mark	Murray	
Kristin	Murray	
Anita	Murray	
Bill	Murray Jr	Media consolidation has already affected our representative democracy in that we only hear what they want us to hear. This will grant more power to already too powerful corporations.

William	Murry	
Vasu	Murti	
Chris	Muse	Big ISP and tech companies have it too easy now. They are preying on us in ads, service at their interest, rather than even trying to meet the Public Interest. They need more regulation, not more handouts.
Adam	Muzalewski	
George	Mychkovsky	Please do NOT continue the march of making life more difficult for those less fortunate. Please keep the INTERNET neutrality that is in place, and reject the proposal for fast lanes, which will benefit the few and hamper the many.
Tim	Myer	Completely against giving greedy giant corporations such power to control internet speed and charge even more outrageous rates.Against the public's best interest. We already suffer badly with the marketing ploys of these soulless , uncaring corporations.
David	Myers	Freedom of information and the equality of access to that information is a tenant no person, no company, nor government can be allowed to infringe upon in a free and modern civilized society.
Fredric	Myers	If the radical right continues to push their narrow agenda upon the American public it will surly end in an armed revolt and a real bloody revolution.
Jan	Myers	Let's go back to serving all of the people not just the rich ones. The unencumbered neutral internet is the one leveling force we can count on. Who is it that wants to take that away? The elite Rich and powerful for their own interests.
M C	Myers	Treat all people fairly - do not allow certain corporations who are not people irregardless of what the Supreme Court says to have greater access just because they have money. The internet has been the one place where there is a level playing field.

Beverly	Nadelman	Once again the rich stand on the shoulders of those not so fortunate. STOP! I access the internet at a library with an overworked server that is already very slow and goes down with some frequency. I would access it at home if I could afford to do so.

Paul	Nadler	By now I'm sure that you've heard from many citizens but I can assure you that the numbers either concerned about this issue who have not written or who are unaware of it is at least an order of magnitude greater. Keep it open.
Robert	Nadler	
Joseph	Nagarya

Juan	Napoles	This move will greatly diminish the ability of the Internet community to determine what content is most important. Decreasing the viability of minority dissenting voices harms democracy. A level Internet playing field should be considered a public good.

Larry	Needleman	As a 72 year old with limited resources, I depend on the internet for medical and financial information, world and local news, and entertainment. I need high speed connectivity and yet I can't afford to pay premium prices. To me the net is a utility.
J.Richard	Neelans	The Internet is akin to Public Radio and Television, it's for everyone. It should not be sliced up and auctioned off to the highest bidder. It's the last level playing field for the common man.
John	Neff	REAL Net Neutrality is essential to democracy, equality and the pursuit of happiness and freedom. It is critical that the FCC does not cave in to corporate big money interests.
