Please do not allow this merger. I believe it is very close to a monopoly. History is repeating itself here.

I want television providers to be competitive so I can choose from more than one or two.

I want more American independent networks and not al Jazeera or BBC influence.

RFD-TV is a wholesome, American oriented, intelligent, informative and entertaining network. It keeps the American way of life alive and broadcasted.

I hate the stupid reality shows. They are so uninteresting, immoral and unintelligible. Why do I have to pay for these channels. I watch less than 15 of all the channels available in my basic plan because of this. There are interesting and intelligent thought provoking programs out there and we watch them.

Please do not allow this merger to happen. It will be devastating to people who want more choices, no anti-American influences and more control available to them.

Please do not allow this merger.
