

7521728773.txt

Just wanted to say I think family net and rfdtv are stations I actually watch more than the network stations, except maybe pbs. I live in the "city", but I know I'm not alone in my love of rural oriented programming, provided by stations like rfd & rural tv. That, to me, is worth making sure it stays. It'd be a real shame for it to disappear. Thank you for your time.
