I was shocked and disappointed to hear that Comcast and DirectTV are actually considering eliminating the RFD TV channel! There are very few channels that are worth watching. RFD TV offers a variety of programs; each one is "clean" in so far as you can easily let children listen as there is no cursing, no nudity, no vulgarity of any kind. The daily Farm Market reports are a welcome "news" item to us daily. The executives at these TV conglomerates of Comcast, DirectTV, and others need to understand that there are 10's of millions of Americans who appreciate clean, wholesome TV. Yes, we live in the "city" but we have a country upbringing and RFDTV is important to our daily lives in many ways. Please don't eliminate RFDTV!!!
