I would like to express my support for the RFD TV rural channel. I am a Directv customer, and receive RFD TV in my programming. I am very concerned that I may lose this rural channel due to this merger. This channel is the main channel I watch on my Directv programming. Without this channel, Directv would be worthless to me. Please protect our right to continue to receive RFD TV rural programming from Directv if this merger takes place. Country folk need a channel for us that covers our interests just as much as city folk do.
