If you think that RFDTV is just for rural America, think again. I am an urbanite, born and raised, and since I started watching RFDTV, I have received a higher education in the problems besetting the people whose occupation is to feed the nation and a whole lot of the rest of the world. These brave and selfless people are as important to our country as our military, and their job is just as tough.

The cable companies are being positively UNAMERICAN, by underserving this huge portion of the Citizens of the USA. PLEASE MAKE SURE THAT AS A CONDITION OF THE APPROVAL OF THESE MERGERS OF THE CABLE GIANTS, THAT RFDTV IS RETAINED IN THEIR LINEUPS IN ALL MARKETS!!
