I know that mergers hapen but I hope that this doesn't affect the programing I have. We have been with Direct-TV for about 18 yrs. and enjoy stations such as RFD-TV. RFD-TV has good family programs, lots of farming information for the farms and consumers. I enjoy many of the programs. My husband and I look forward to such programs as Larry's Country Dinner and Country's Family Reunion every week. The tractor shows, truck pulls, farm machinery shows and many others.

My husband can no longer work a full time job do to health problems caused by getting sprayed with Agent Orange in Vietnam, so looking at these programs brings back good memeries of growng up farming with his uncle and working at the local IH dealer. I hope that this merger does not take RFD-TV of the air for us. American needs more stations like RFD-TV.
