The internet has become the source for news for me! I have 3 Grandchildren living with my wife and I. They use the internet for a majority of their schoolwork and for entertainment. This needs to be made a Title II utility if we are going to be able to depend on it for the future. These big telecoms DO NOT need to throttle speeds. They will if given the chance.

I also DO NOT support the idea of telecom mergers. There needs to be competition! No to Time-Warner/Comcast and NO to ATT/DirectTV. I use at least 2 of these services and I know from experience that their prices will increase if they are allowed to merge. There is NO GOOD REASON to allow this!
