While I am not opposed to the proposed merger, I would submit that the approval of any merger not end the opportunity for anyone that may wish to have access to RFD TV and any other networks of rural importance. RFD TV is a major source of information in our rural businesses and lifestyle. Access to RFD TV for our urban and suburban neighbors helps provide an avenue that allows many consumers of agricultural products an opportunity to become familiar with rural issues and our way of life. Please protect the consumers right to have access to RFD TV. Sincerely, Steve Shinn
