Dear Mr. Gottsch,
Please accept my family's deepest gratitude for the rural wholesome television programming your stations provide. There's so much competing for our children's and grand-children's attention and the vast majority of television programming isn't very wholesome. Please continue fighting for our right to have access to rural television programming. Cable Television is not available where we live so we subscribe to Direct TV but we will not hesitate to CANCEL our subscription to Direct TV if RFD TV is not available. I want to personally THANK YOU for not having the so-called "male enhancement" product commercials on RFD TV.

Sincerely,
Johnny Pigford
