Here in Schuyler County Missouri many of our residents live on farms because most of our economy is farming and a lot of them use Direct TV to get tv service and those of in the towns use the local cable company Superior Cable and Data and one of the channels we all agree on is RFD-TV we get good family shows like HeHaw and our farmers are able to get the news they need to hear on the Rural Evening News like the days price for corn and soybeans which are just two of the crops grown here. We just hope that if this merger goes through those of us who use Direct Tv will not lose RFD-TV.
