

7521736789.txt

I have been a DIRECTV customer since 1998 and the channel that I watch most over the last few years is RFD-TV!! Although I am in an urban setting now, I came from a rural background. We never should forget our rural roots - it is who we are!

Please do not let big companies rob America of our roots - the programming on RFD-TV is very entertaining and provides a total family oriented format.

The independent companies should be protected - there are other channels less family oriented with less viewers that should be dropped.

Regards
