**Subject: Appeal of USAC Funding Decision - Docket 02-6**

Osher Eisemann  
DIRECTOR

James E. Delaney Ed.D.  
PRINCIPAL

**Request for Reconsideration**

**Request For A Waiver**

From: School For Children With Hidden Intelligent  
Nachman Greenwald

471 App. **870476**  
FRNs 2373712, 2373719, 2373760, 2373780  
2373958, 2373997, 2373707, 2373748 and 2373769

**We had previously requested a waiver for the above references FRNs. Our request was denied on the basis that we failed to demonstrate that special circumstances exist to justify a waiver of the deadline. We are asking for the FCC to reconsider the FCC decision to deny that request as we believe that special circumstances do exist that justify a waiver of the deadline.**

On 4/30/2013 all the above FRNs were denied. In the FCDL comments it states "FRN canceled in consultation with the applicant". We had cancelled these FRNs without taking in to consideration the possibility that USAC will not fund any Internal Connections in 2013, **this was totally unprecedented at that time**, since the E-rate program began this has never happened.

We did not want to waist our time as well as the time of the reviewers employed by USAC to review our 2012 application, when we believed that our 2013 application which was filed with some modifications after the our building plans being complete would get approved.

THE SCHOOL FOR CHILDREN WITH HIDDEN INTELLIGENCE

...because every special child deserves a chance

That is why when our 2012 was denied we had no reason at that time file an appeal within the 60 Days deadline.

However, since on February 27, 2014 USAC made this unprecedented decision to deny all Internal Connections applications for 2013, we respectfully request that the Commission that we should be allowed retract our previous request to cancel all the above referenced FRNs. We did file our FCC appeal within 60 Days of that decision.

We believe that this unprecedented decision to deny all Internal Connections applications for 2013 should be considered " **special circumstances**".

School For Children With Hidden Intelligent is a private not for profit school for special needs children, There is a wide range of mental, physical, and medical disabilities in our school. The E-Rate funding is vital for us to be able to continue providing for our special needs students for their education and their other needs. Specially, at this point that we are adding a major new wing it is extremely important that each of these rooms is properly equipped with up-to-date technology to ensure that each student receives the education they are entitled to.
