

7521744032.txt

RFD TV is an absolute necessity for this country. We are "country" and we want to be able to continue watching the programs that are important to US. We are sure there are just as many "urban families" watch these stations for the opportunity to learn about agriculture and all that goes with it, our food and products, manufacturing as well as all

the other good (no great) programs..

Whatever can you be thinking DAVID COHEN THAT "Comcast" IS A PRIMARILY URBAN -CLUSTERED CABLE COMPANY? Did you ask the people?

Whatever makes all of you think you should CONTROL what we have to WATCH!

We watch RFD TV a lot of hours ,of course the fact that we are retired helps on that note but even so ,we don't think it should be up to you to say "WE AREN'T COUNTRY" WE ARE AND WE WANT TO STAY THAT WAY. Please reconsider the options here. Sincerely, Arnie/Wilma Hummel
