

7521744161.txt

RFD TV has no negative shows, they are educational. They have cooking shows, farming shows, interview farmers, and tell about what farmers are doing now. The shows are important because we the public like to know what struggles and improvements the farmers are going through.

There are horse programs, and other shows that appeal to a vast amount of people in different areas.

Please keep RFD TV on the air.
