Regarding RM-11727

To whom it concerns:

I am Jeff Fuller General Manager of KCHE Radio station 92.1 Cherokee Iowa. I support the FM Class

C4 / 73.215 petition filed by SSR Communications and urge the Commission to adopt the proposal. We are surrounded by a number of very small communities that don't have their own radio stations, and with this additional 6,000 watts we can give those communities a better opportunity to listen for severe weather coverage, news that is important to them, and get other information. Our job is to serve the public interest, and even though it is only 6,000 watts of additional power, you would be surprised how many more people our radio station can serve at 12,000 watts vs. the 6,000 we currently have.

Thank you for considering this measure

Sincerely,

Jeff Fuller KCHE FM 92.1 Cherokee Iowa
