Five-Year Network Improvement Plan
For Farmers Mutual Technologies, Inc.

In its *USF/ICC Transformation Order* and subsequent Orders, the Federal Communications Commission (“FCC” or “Commission”) requires Eligible Telecommunications Carriers (“ETCs”) to submit a five-year build-out plan in a manner consistent with Section 54.202(a)(1)(ii) of the Commission’s Rules by July 1, 2014 and to submit annual progress reports thereafter.¹ Section 54.202(a) (1) (ii) states in part that ETCs are to [s]ubmit a five-year plan that describes with specificity proposed improvements or upgrades to the [ETC’s] network throughout its proposed service area. In its *March 5, 2013 Order*, the FCC specified that for rate-of-return carriers, the five-year plans “should describe the carrier’s network improvement plan, which should provide greater visibility into current plans to extend broadband service to unserved

ETC and hereby submits its five-year network improvement plan.

I. The Challenges Faced by the Company in Providing Voice and Broadband to its Rural Service Area

A. Description of the Company and its Service Area

Farmer’s Mutual Telephone Company is a cooperative competitive local exchange carrier, head quartered in Bellingham, Minnesota. The Company provides its member’s with high quality local service, long distance, and broadband services. Utilizing a state-of-the-art Fiber to the Home network the Company is capable of providing advanced services to all of the areas they serve.

upgrading of facilities and services for which the support is intended.”⁴ Pursuant to Section 54.314 of the FCC’s rules, in order for state-designated ETCs to receive USF for the coming year, states must annually file certifications by July 1 stating that all federal high-cost support provided to such carriers within the state “was used in the preceding calendar year and will be used in the coming calendar year only for the provision, maintenance, and upgrading of facilities and services for which the support is intended.”⁵ ETCs not designated by a state must file similar certifications with the FCC.⁶

In its *USF/ICC Transformation Order*, the FCC clarified that prior to making the Section 254(e) certifications, states should conduct a “rigorous examination of the factual information” contained in the annual Section 54.313 reports, of which the five year network improvement plan and annual progress reports are a part, in determining whether they can certify that carriers’ support has been used and will be used only for the purpose for which the support was intended.⁷ The FCC said that it would also use the reports to verify certifications filed by ETCs that are not state-designated.⁸ In this context, the Commission stated, “[i]n light of the public interest obligations we adopt in this Order, a key component of this [Section 254(e)] certification will now be that support is being
