Please do NOT discontinue RFD TV from Direct TV/ATT. We watch 4 to 5 hours every single day. The only reason we started Direct TV years ago, was to be able to have RFD for all the rural news and horse events.

This is the only show that I can "safely" watch with my 10-year old granddaughter without worrying about the explicit sexual commercials that are on the major channels - especially NBC Nightly News.

We have Direct TV, ATT internet, ATT cell phones (2), and ATT home phone. If RFD is removed, we will be shopping for other internet, cell phone, and home phone providers.
