

7521749460.txt

Ladies and Gentlemen,

I'm pleased that the FCC is an interested party in the LA Dodgers/Time Warner fiasco.

Although I am a SF Giants fan, the rest of my family are diehard Dodger fans, and the blackout situation smacks of greed, monopoly building, and general manipulation of the market place; and it's making things tense around the house because we see more SF than LA games!

I hope you are aware that Time Warner took the matter a step further by blacking out WGN's telecast of the Dodgers and Cubs today; and even worse, they blacked out last night's MLB's "Quick Pitch" look-in of the Dodger game last night. (They previously allowed it, including the night of Kershaw's no-no.)

Please continue to insist that all greedy parties solve this dilemma; and in doing so, let the Dodgers know that my family and friends will not be attending any games at the stadium until this situation is resolved.

And no, we cannot access Time Warner cable in our area.

Thanks,
Richard P. Tetu
