Notice to Individuals Required by the Paperwork Reduction Act of 1995
 OMB Control Number 3060-1185 (Annual Report for Mobility Fund Phase I Support, FCC Form 690 and Record Retention Requirements)
 Notice to Individuals Required by the Paperwork Reduction Act of 1995
 Public reporting burden for this collection of information is estimated to average 18 hours per response. Our estimate includes the time to read the instructions, look through existing records, gather and maintain required data, and actually complete and review the form or response. If you have any comments on this estimate, or on how we can improve the collection and reduce the burden it causes you, please write the Federal Communications Commission, Office of Managing Director, AMD-PERM, Washington, DC 20554, Paperwork Reduction Act Project (3060-1185). Please DO NOT SEND COMPLETED FORMS TO THIS ADDRESS. You are not required to respond to a collection of information sponsored by the Federal government, and the government may not conduct or sponsor this collection, unless it displays a currently valid OMB control number and/or we fail to provide you with this notice. This collection has been assigned an OMB control number of 3060-1185.
 THIS NOTICE IS REQUIRED BY THE PAPERWORK REDUCTION ACT OF 1995, PUBLIC LAW 104-13, OCTOBER 1, 1995, 44 U.S.C. SECTION 3507.

Project Description¹

Overview and Initial Statement

Central Louisiana Cellular, LLC d/b/a Cellular One (“Central LA” or “the Company”) is a facilities-based provider of commercial mobile radio services doing business as Cellular One and providing cellular services to tens of thousands of subscribers in authorized service areas in Central Louisiana.

Mobility Fund Phase I support won by Central LA will expand and upgrade the Company’s existing GSM/EDGE system in the applicable census tracts in order to provide 3G or 4G broadband services. The Company is upgrading cell sites and adding sites in certain areas where the Company is already authorized by the Commission to use the same cellular frequencies, providing coverage to achieve optimum broadband capabilities.

Network Description; Proposed Technology; Feasibility Demonstration

Summary; 3G/4G. The Company’s wireless network encompassing the census blocks for which it has been identified as the winning bidder currently uses GSM/EDGE technology to provide cellular services. The Company is upgrading to, at a minimum, [REDACTED] to provide service to at least seventy-five percent (75%) or more of the designated road miles, within the relevant area within two years from the date on which the Company was authorized to receive support, in certain areas.

Private Investment in Core Upgrades at [REDACTED] Switch. The Company is in large measure allocating its own funds to upgrade the network switching core that serves markets in the census blocks for which it has been identified as the winning bidder. The Company’s significant private investment in upgrading core technology components will enhance the benefits realized from its use of Mobility Fund Phase I support, because these components represent a material portion of the network upgrade to broadband capability. The Company’s major switching center in [REDACTED], is receiving these broadband enhancements.

Allocation of Support; Data Speeds; Technical Feasibility. The Company is upgrading its GSM/EDGE network to broadband at existing cell sites and implementing necessary transport enhancements, resulting in broadband coverage of the eligible areas of the census tract. The broadband technologies implemented will deliver the data speeds and transmission latencies specified in the Commission’s rules.²

¹ / Any material updates will be described by the Company in its reports filed for review by the Commission.

² / See 47 C.F.R. 54.1006(a), (b).

PUBLIC REFERENCE COPY

Implementation of [REDACTED] over the available spectrum in these areas will allow the Company to meet its public interest obligations because these technologies and the available spectrum, coupled with the Company's performance plan and construction schedule estimates, will provide the necessary speeds, latencies, and coverage to comply with the Commission's rules and orders setting forth these obligations. The Company remains firmly committed to complying with all regulatory obligations associated with the support, including also, for example, obligations with regard to roaming and co-location in these areas.

Primary Suppliers/OEMs. In considering which equipment would work best for successful deployment of its broadband network, the Company has met with numerous vendors and considered their pricing proposals and terms. [REDACTED]

Project Management; Network Components; Network Design and Construction, Deployment and Maintenance. The Company is managing the Mobility I broadband deployment project utilizing internal and external engineering resources as deemed appropriate. These engineers are providing radiofrequency (RF) planning and supervision, managing the equipment purchasing process, working with local service providers to secure necessary backhaul, and working with a tower services company to install equipment on towers.

In this particular tract, the Company intends to use five towers for broadband coverage. The status of the Company's efforts to upgrade each of these towers is as follows.

At four of the sites, the Company has filed equipment modification documents with the lessors. Structural analyses will be conducted. Thereafter, the Company expects to receive lease modifications and lessor notices to proceed. Work is proceeding on additional backhaul to increase capacity in order to handle broadband throughput. New base station equipment and antennas have been ordered to match the antenna configurations. Delivery is expected within six to eight weeks. Installation of equipment at the cell sites will occur in clusters. After all equipment and services have been delivered and installed, data and voice call testing and optimization will occur. When system testing has been completed successfully, the system will be launched for on-air commercial services.

At the other site, the upgrade to 3G is complete, and 3G service is available in the surrounding area. Mobility Fund drive testing is in progress.

Maintenance of the network includes monthly, semiannual and annual maintenance reviews at each cell site. During these reviews, the Company's field technicians evaluate the condition of the dehydrator, generator, and external alarms; evaluate transmitting and receiving voltages and identify and rectify any line, radio, or counting errors; review generator readings, voice channel maintenance records, and any microwave received signal strength indications; sweep antennas and lines; and inspect any halon system at the site.

Budget; Timing

Central Louisiana Cellular, LLC

PUBLIC REFERENCE COPY

The following Project Budget sets forth current projections for the total budget as well as amounts budgeted for each phase of the project, and specifically relates the budget to the costs for the activities in this project plan.

Any funds required to complete the project that are not included in the award for support are noted. Specifically, the Company is allocating its own funds, in the amount of approximately [REDACTED], to upgrade the network switching core that serves the markets involved, as well as for certain cell site upgrades. This significant private investment will enhance the benefits gained from the utilization of Mobility Fund Phase I support in upgrading the remainder of the network to broadband capability.
