To the Federal Communications Commission and the Justice Department:

The proposed Comcast-Time Warner Cable deal would create a television and Internet colossus like no other.

Comcast is the country's #1 cable and Internet company and Time Warner Cable is #2. Put them together and you get a single giant controlling a massive share of our nation's TV and Internet-access markets.

Putting this much power in the hands of one company is dangerous. This deal would lead to less consumer choice, less diversity and higher cable bills.

Please take the necessary steps to block this merger.
