In re: 14-90 AT&T- DIRECTV Consent to the Transfer of Licenses

Dear Commissioners:

I sincerely hope that you will deny the consolidation of AT&T and DirecTV. It would be anti-competitive, anti-consumer and anti-diversity. It was deemed by the courts that the Bell System should be dismantled in 1982. Why now should they be allowed to begin reconsolidating?

Consolidation in the communications and broadcasting industries over the past 30 years has been bad for the United States on many levels. We have fewer choices. We have access to a much narrower range of news and information. Too much control has been concentrated in the hands of the few.

Please deny 14-90 AT&T- DIRECTV Consent to the Transfer of Licenses

Sincerely,

J Eric Braun
