Net neutrality is important because it protects the free flow of ideas. It creates an equal field for people to communicate, create and flourish, regardless of gender, creed, orientation, nationality or paygrade. This is truly what makes the internet such a beautiful thing. It brings people together through ideas. Media is how these ideas are presented. Constricting internet media would strangle the life from this place.

Please, don't kill this inner expose of humanity. Please support net neutrality. (also, I'm really tired of old white men telling me what I can and cannot do. I don't want that here too.
