

7521752826.txt

RFD-TV provides extensive de facto public service programs which support America's farming community. The information provided is important to all viewers urban and rural.

Often satellite or cable is the only transmission means to rural viewers

The commission is requested to prohibit the merged AT&T/ DIRECTV from dropping RFD-TV and similar focused programming and require such programming to be part of basic service in consideration for use of the public spectrum.
