

AT&T DirecTV Merger

I am writing about the ATT and DirecTV merger. ATT and DirecTV both tell consumers one package price, then it spikes higher for their services.. Customers jump back and forth from their tv products due to this.. If they merge, competition dies and their price hikes limit choices.. This is the same reason pretty much that I did not support ATT Tmobile merger and you denied the merger.. Please do the same here.. ATT in particular is too big to limit trade further
