

Attention FCC Decision Makers,

I am here doing my small part to VOICE my STRONG OPPOSITION to the COMCAST/TIME WARNER Merger!

And I have to express my deep, deep concern over this SCARIEST of possible Mergers, truly this has to be one of THE WORST proposed MERGERS to be attempted thus far! The ramifications will be felt around the world! It gives TOO MUCH POWER to ONE CORPORATION, they have become so OVER BLOATED and if you approve this, you'll be subjecting the viewing public to a 24-7 bombardment of their CENSORSHIPS of some of the SMALL INDEPENDENT NETWORKS ability to AIR their Subject matter that focuses it's attention towards a select GROUP of VIEWERS, that live and work in that NICHE and prefer to WATCH Only their BRAND of RURAL WHOLESOME PROGRAMING such as: My favorite Channel and BROADCASTING NETWORK is called RFD TV and RURAL TV. And FREE SPEECH TV. These NETWORKS will be BLOCKED by COMCAST!

COMCAST has Clearly STATED their POSITION and VOICED their intentions to ONLY ALLOW "URBAN" Programing!!!

SO too BAD so SAD for Networks that offer RURAL Centered PROGRAMING! ... {This is just a small example of one area that will be CENSORED!}

What that says to me is... essentially it will be "An ENORMOUS DILUTION of CHOICE and more and more a BROADCASTERS are getting to SAY "Ef U"... take it or leave it... FCC are you really going to allow them this type of "DICTATORSHIP Power over the PAYING subscribers?"

TOO Much of this has already been allowed; we're at the point now were we'll soon be looking at literally only ONE CORPORATION left standing, holding all the CARDS and Playing every one that suits only their GREEDY MEANS. This be CRIMINAL to hand over this OUTRAGEOUS amount of POWER, where a few people are being able to MANIPULATE every SOUND BITE the public hears and or sees with NO CHECKS and BALANCES.

This is literally a RUN-AWAY TRAIN that must be STOPPED! And furthermore, I know I don't stand alone... when I say that the metaphorical RAILWAY CARS really need to be REMOVED and SOLD OFF to SAVE our COUNTRY, and to restore what once made AMERICA so Special. We've STOPPED being the COUNTRY where anyone has the ability to make it. Mergers like this make it IMPOSSIBLE for the LITTLE GUY to have a shot in a Truly Honest FREE ENTERPRISE SYSTEM.

Instead of impending CALAMITY we will be subjected too, after the FCC turns coat on the AMERICAN PEOPLE by handing over this ENORMOUS POWER over to a HANDFUL of Multi-TRILLIONAIRES, whom will then be in charge of PROVIDING "All" the INFORMATION and Entertainment MEDIA available to the 99%.

They have already been POISONING the MINDS of AMERICANS with ALL their distortions and un-checked Zombie lies! CHOICE is fast becoming NON EXISTENT, and the Word CHOICE will need to be removed from the DICTIONARY because, there literally won't be any NEED for a WORD that no longer has any MEANING... if the FCC Decision MAKERS let this happen they will be BREAKING the ANTI-TRUST LAWS!

Don't DO IT, For ONCE ... listen to the PAYING PUBLIC! ... It's more than your JOBS. which perhaps you may be thinking you're protecting, it's actually your MORAL OBLIGATION to PROTECT the PUBLIC and your OWN FAMILIES! ... from being SPOON FED what "THEY" want us to see and hear!

To REMIND you OF WHAT the MEANING of ANTITRUST LAWS are:
Below was taken from <http://www.antitrustlaws.org/>

Anti trust Laws Protect the Public from Unfair Practices in Large Corporations

Anti trust laws were put in place by federal and state governments to regulate corporations. They keep companies from becoming too large and fixing prices, and

also encourage competition so that consumers can receive quality products at reasonable prices. These laws give businesses an equal opportunity to compete for market share. Preventing monopolies ensures that consumer demand is met in a fair and balanced way. There are four sections that the laws focus on including agreements between competitors, contracts between buyers and sellers, mergers and monopolies.

Agreements between Competitors

To prevent price fixing, the government limits contracts between two competitors who are selling the same product in antitrust laws. Companies are also not allowed to rig a bid so that a certain group of bidders are already determined to win the bid before the bidding process begins. Another aspect of business that falls under this is geographic market allocation. This means that competitors cannot agree not to encroach on each other's territory and sell their products. This prevents the company from having a monopoly on the market in that area.

Contracts between Buyers and Sellers

The U.S. antitrust laws also protect buyers. There are minimum levels of production quality that are required and consumers must be aware of certain details regarding a product or service. This includes the cost or any warranty. Consumers may also not be misled with false advertising claims. The U.S. Federal Trade Commission (FTC) and the U.S. Department of Justice Anti-trust Division are responsible for enforcing these laws and overseeing corporate trade practices.

Preventing Monopoly Powers

Even if a company does not enter into contracts with competitors to limit trade, they may still be able form a monopoly if they offer a unique product that has no competition. Some companies also have unreasonable exclusory practices that create a monopoly. A company with large cash reserves can dictate the price of their products and they may use predatory pricing to stifle competition and force them out of business. Then the company no longer has an incentive to improve their product.

Restrictions on Mergers

The largest issue that antitrust laws deal with however is the formation of mergers. Mergers normally create a company that is designed to operate more efficiently. However some mergers reduce competition in the marketplace leading to higher priced products, fewer goods and services, lower quality products or less technological innovation. Mergers and acquisitions that significantly lower competition tend to create monopolies. If there is a question of whether a merger will damage consumers, it is investigated by the FTC.

These laws encourage businesses to compete fairly. They promote market competition to provide consumers with the best products possible at reasonable prices. Preventing corporations from anti-competitive behavior leads to more healthy economic growth and prevents stagnant markets. By having set rules that make certain practices illegal, the government can regulate businesses. With more vigorous competition it is believed that consumers will benefit from lower pricing, better products and services, more choices and increased innovation.

I know that if the FCC allows this Merger to go through... it will signify a TOTALITARIANISM of a Corporate MONOPOLY, in the MAGNITUDE of which, hasn't been seen since ROOSEVELT broke up JP MORGANS STANDARD OIL and RAILROAD MONOPOLIES!!!

I as one of the 99% ... we have had ENOUGH!... of All these UN-Checked, Corporate RUN-AWAY TRAINS and of their bold MONOPOLISTIC movement which has and is being allowed to grow exponentially: ILLEGALLY!!.

Let me strongly remind you:

What you, at the FEDERAL COMMUNICATIONS COMMISSION should really be doing is:

BREAKING Up ALL these CORPORATIONS...

There are Several enormous Companies which need to be RIPPED APART; into Chunks that would fall under the term: "SMALL enough to FAIL" manageable Sizes!

Instead of repeating over and over the PAINFUL Lesson which we all were forced to LEARN in 2007-2010...The PROBLEM... with TO BIG is TOO BIG TO FAIL! I see what is about to come tumbling down upon us... is just like the BANKS pulled on us...

And by the way... The SAME People whom are Majority Stock Holders in the BANKS actually OWN COMCAST and TIME WARNER Companies: So, I smell another BIG STINKY RAT... Just like what happened with us having to LOOSE our RETIREMENT Money in the STOCK MARKET, they learned that all they have to do is GROW TO BIG and NOTHING can HAPPEN to THEM no one even has to go to JAIL when your TOO BIG TO FAIL!! They can restrict our Choices, Brainwash our people with their PROPAGANDA and LIES, raise our RATES and if they STEAL all the MONEY, they'll go to the CORPORATION of the UNITED STATES of AMERICA and Saddle the AMERICAN PEOPLE with MORE Money Changers Fiat DEBIT, to BAIL them OUT!

I am sick to death of All these GREEDY BASTARDS holding us hostages under these MONOPOLIES for over 143 years!... The AMERICAN People need to WAKE up and regain their ORIGINAL CONSTITUTION and INVOKE an ARTICLE V to have the STATES Ratify the REINSTATEMENT of our ORGANIC CONSTITUTION. Numerous things have been cleverly withheld from the People, and this MERGER is just another insurance policy to STOP the 99% from getting the TRUTH about what the 41st CONGRESS had NO LEGAL right to do, when they SOLD us back to the ROTHSCHILD'S and the ENGLISH CROWN. And How the Missing 13th Amendment was hidden replaced by President Lincoln. This is just an EXPLANATION of why and how the GOVERNMENT of the United States of America formed on FEBRUARY 21st, 1871 became the Property of the ENGLISH CROWN and why "The Members of the Board that reside in "The District of Columbia"... All know that they do not have to LISTEN too it's SERF citizenry, nor do they have to protect the interests of any people that don't produce FOR the "FOR PROFIT United States of America, Incorporated. Agenda 21, now Rio+20 has been carried out. And they will make sure the PEOPLE remain In full ignorance, and anyone that tries to INFORM the Populous to raise enough awareness, under the Patriot ACT and subsequent ACTS are being disposed of, so that only the sheep will be left behind; without any threat of dissent against them!

In Closing... what the FCC should ABSOLUTELY Not do is: Assist and enable ALL these Corporations which come before the FCC for MERGER APPROVAL so they can BREAK the ANTI-TRUST LAWS.

FCC you are supposed to USE the LAWS...which we've already had on our books!

It's thoroughly disgusting how our ANTITRUST LAWS have been TOTALLY IGNORED for DECADES. And I believe whole heartedly that it has lent and added to the overall decline in our NATIONS economic prosperity and has irreparably tarnished Americas image around the WORLD.
