I beg of you to do whatever is required so that the people of Wabaunsee County, Kansas continue to receive RFD-TV on Direct TV. I make this plea because it is to my knowledge the only station that has all the agricultural news and current livestock and grain markets. Without it we have to rely on a weekly newspaper and by the time we receive it the news and markets are actually "history". There are many people in rural America who depend on stations like RFD-TV for information that affects their ability to make a living and feed the American public. Thank you for your time in reading my opinion.

Sincerely,
Waldo Dick Poovey
