I'm a retired banker, and my wife is a retired RN, from Iowa who now spend our winters in the Phoenix, AZ area.

It's not only rural folks who like to watch rural programming. Many people in this country have rural roots and enjoy seeing this informative, wholesome tv.

There are so many duplicate channels and so many that are violent & inappropriate for most audiences.

We urge you to require that more family programming, including RFDTV be offered both in rural and urban locations.
