We receive our cable thru our local telephone company, who gets the signal from Direct TV I believe. We watch RFDTV several hours a day. My husband likes the tractors and old farming ways. I like the cooking shows. We would like to get Rural TV but not able to so my husband now can not watch the Superior auctions like he did. We also enjoy the gospel music shows like Larry's Country Diner and Family Reunion shows. Miss the Gaither shows. If this is not continued I know we would not keep our cable. No need for it if not able to watch RFDTV. We have been small time farmers for all our 45 years together so enjoy learning about other areas of rural life. We raise sheep so have seen a few programs on these and also the sheep dog trials.
Thanks RFDTV for all your hard work.
