Re: CC Docket No. 95-116; WC Docket No. 09-109

Dear Ms. Dortch:

I write in response to the letter from John T. Nakahata, counsel to Telcordia Technologies, Inc. ("Ericsson") dated August 12, 2014.

Neustar shares the Commission's focus on national security concerns with respect to evaluation of the NANC's recommendation of the next administrator for telecommunications numbering. These concerns are reflected in the procedures that the Commission has put in place to govern access to materials redacted for security-related reasons, including national security. As Neustar informed counsel for Ericsson on July 28, 2014, the security-related redactions in comments that Neustar filed on July 25, 2014, reflected the Commission's cautious approach. Neustar is fully prepared to work with Commission staff to make more information available to the public, while ensuring that security concerns are adequately addressed.

Neustar has consistently advocated greater transparency in this proceeding. We continue to support enhancing the public's access to all of the materials in this proceeding other than bona fide competitively-sensitive and security-related information. Making those materials publicly available is legally required, will enhance the Commission's decision-making, and is in the public interest.
