I had Time Warner years ago before it became Comcast & I had LOTS of problems with service outages, billing, customer service, & not getting much for my money. Things got even worse 1ce they became Comcasr. I only had Time Warner & have Comcast now because there were no other cable options in my area. If Time Warner & comcast merg, they will not be competing with each other & less major competi on means things will get a lot worse for those customers unfortentai te enough not to have any other opti ons like me who are stuck.
