Re: 3.5 GHz (12-254), 5 GHz (13-49), and broadcast incentive auction (12-268), as well as ICC/CAF Docket 10-90 proceedings

Dear Ms. Dortch:

On April 9th, I gave a presentation to the Wireline Competition Bureau to present my experiences in starting up a small wireless internet service provider in rural New Mexico. I explained the entire process, from conception through first paying customer. While most of the presentation did not require filing of an ex parte notice, I did in one slide discuss things I thought the FCC could do to help small WISP operators like me get started.

Pursuant to Section 1.1206 of the Commission's rules, a copy of the relevant slide is being electronically filed in the above-referenced docket. Please contact me with any questions.

Sincerely,

Brock M. Tice
