

7521768913.txt

I am opposed to the proposed AT&T / DirecTV merger.

My opposition is based on the likelihood of the merger resulting in fewer consumer choices and the likelihood of reduced programming options, such as RFD TV.

RFD TV provides programming focused on the rural and agricultural target audience, which I appreciate. I depend on RFD TV programming for up-to-date information regarding ag-related topics and market conditions. I also enjoy the various musical programming of RFD TV.

My concern is this potential merger would result in RFD TV being de-selected by the merged firm and RFD TV programming would no longer be available.

Best regards,
Jim Woestman
