Sex, profanity-filled, nudity and violent TV shows are not always what Americans want. Just because it is popular with some, it is NOT popular with many. Don't believe me? Then allow your own 6 year old child or grandchild to watch "Sex in the City" or "Naked & Afraid", "Family Guy" and shows on LOGO/OWN/HBO and many others. There are still millions of Americans that want CLEAN, WHOLESOME shows...just like those on RFDTV. Why force millions of Americans to turn off the TV instead of giving them some choices they will watch? Don't force us to watch "dirty" TV. Do you want your wife/husband to watch porn in front of your kids? Well, not giving us choices like RFDTV is what we feel this would be like. Thank you for your consideration.
