I am concerned that with the merger of AT&T/DIRECTV, I may lose my RFD-TV. This channel and its RURAL TV channel are important to my household. I know I can tune into RFD-TV and not be concerned that my grand children will be met with nudity, profanity, or violence-or me either, for that matter.

I am asking that whatever can be done to insure I don't lose this and other channels that AT&T don't currently carry when the merger takes place, be done. Please-this merger was not the viewers' decision, so I'm pleading with you on behalf of DIRECTV customers: do not allow this merge to take away my RFD-TV. Thank you
