Please KEEP both Rural TV and RFDTV in your channel offering. We were previously Comcast customers and RFDTV was in their channel offering. We loved it. Then without any notice Comcast discontinued to offer RFDTV. We have for years repeatedly asked that Comcast add RFDTV back into their channel offering. Finally, we gave up waiting and switched to Direct TV just to be able to have Rural TV and RFDTV only to learn two weeks later that At&T purchased Direct TV and there is the possibility we could again lose RFDTV and Rural TV.

We enjoy all the programming on these two channels; cooking, animal care and showmanship, rural news, music shows, outdoor shows; all of it.

Please KEEP RFDTV and Rural TV.
