Dear Sirs:

I am writing to ask that RFDTV programming will continue into the future on AT&T/DirectTV. We are in a very rural area and can not receive cable or direct broadcasting.

RFDTV is on our tv 80% of the time that it is on! WE do not watch the NFL, NBA, movies and the rest of the junk programming that is broadcast on DirectTV so I will drop the service if RFDTV is dropped.
