Please make AT&T/DirectTV continue to carry the RFD TV channels as a requirement for merger. RFD provides a necessary and wholesome service not only to Rural America but to those of us in urban areas as well. The information they provide is necessary for our country's food production. RFD also provides good, clean entertainment that ALL ages can enjoy unlike much of the junky and offensive entertainment by the so called Movie and Entertainment channels that I would not even let my dog watch. Let's provide America with a truly wholesome choice. Retain the RFD channels.
