We pay an extra \$20 per month to Charter Communication monthly for 2 extra tiers higher of programming.

The only reason is to get the RFD Rural TV Program. It's the only place to find good Country music and keep in touch with what the Country Music Artists are up to. "If RFD TV is ever dropped we will immediately be dropping our cable service back to Basic Cable only." Please protect the independent station and save an American Freedom to watch good family tv. In the long run cable companies are saving their own financial bottom line by keeping a great product on the air. Thank You
