It would be a great mistake to allow these two corporations to merge. Neither has good customer service and there's no reason to think it would be any better if they were larger. Direct tv has been trying to drop two of Toledo's local stations and would drop rfd tv. I am a city dweller, but I appreciate the WHOLESOME programming to be found on these stations. I have had so many problems with a. t. & t, their service department is on my speed dial.

Thank God for Dish network. I'm happy the merger between Direct tv and Dish didn't go through several years ago and I am firmly opposed to A. T. & T. merging with Direct tv. We don't need to create any more large heartless monopolies, that don't respond to their customer's needs!
