I am in complete agreement with RFD TV and that we need to keep this country open to our freedom of speech as not to divide our country by one sided opinion. Our country was designed from a rural agriculture life style, christian beliefs, support of all people not discriminated against due to money or opinion, color, race or religion. For these reasons I am standing against the FCC and their bias opinion. Leave our network alone. We should not have to fight for freedom here at home.
