Any actions taken by the FCC to allow Corporate Media moguls like COMCAST, ATT, etc. to remove decent and wholesome programming like RFDTV, and replace it with ALJAZEERA A, a network as anti-American as one can get, is in my eyes a treasonous act against the Real American People. I want RFDTV because it supports traditional American values, and Country Western, Bluegrass, and Polka music is the Heart of America. RFDTV and other rural networks have a right to be in mainstream media as a continued reminder of our roots and our patriotic obligations to the U. S. Flag for what she stands. RFDTV is the Backbone of America, and the Feds refuse to acknowledge that this Country is a Sovereign Nation, and should not be beholdng to anyone. It is time for the Feds to protect this Nation and its infrastructure first, and use what's left sparingly to assist those Nations deserving assistance. ALJAZEERA A does not in my opinion display or profess traditional American values and allegiance to God & Country. Islam wants to rule the World, and radical Islam gets its support and reverence from them, and ALJAZEERA A is a key media infiltrator of their beliefs and ultimate goals. This American citizen is telling you to remove ALJAZEERA A from all networks broadcasting under the control of the FCC, & require the media moguls to keep RFDTV & Rural Programming and stop this madness. Do that & I'll support you. Until then, I accuse the FCC, Congress, and the POTUS of committing acts of treason. Simple as that. Thank you for your time.
