The RFD channel currently is on Direct TV, and in the upcoming merger w/another company it could be dropped from basic cable. I oppose it being dropped. First, smaller independent cable businesses should have the same opportunity as the larger companies doing these mergers. Bigger is not always better.

Second, although I have not made my living on a farm, I grew up on a farm and I still watch crops growing each summer, concerned they do well. RFDTV helps me be aware of farming/rural life.

Please see that RFD television remains available to viewers around the country on the basic cable.

Thank you
