. In the previous decade the U.S. Government offered Comcast an abeyance on Federal taxes (abeyance, you know, like our Constitution is in abeyance) if they would use that relief to develop accessible, affordable high speed internet access to Americans. Comcast took the \$ and declined to keep that promise. Please reject the Comcast/Time Warner Cable merger, and give American consumers a break. As a business Comcast has proved it's evil intent toward our government AND it's people. Comcast should receive NO FURTHER ASSISTANCE whatsoever from this government. most sincerely Sybil Natawa Eugene, Oregon
