. Please stop this merger. It feels like Comcast has a monopoly already and is strong-arming any other competitors. I hate my \$99 bill every month for my internet use with Comcast. I strain to pay it monthly. I am a student and use the internet at home for homework so I can work at odd hours on it, rather than at school. If I am late on a payment, I get slapped with a \$100 fee. THAT IS INSANE. Comcast feels like a trap. A monster. A merger would only make it worse. The merger would make the company even more powerful and the consumer would be a slave to their exorbitant rates, fees, penalties and overarching control. PLEASE STOP THE MERGER, Chairman Wheeler. Thank you. Sara Tufvesson Doure
