. The price we pay for Comcast service is outrageous, we are forced to pay many, many channels we do not want. Ala cart channel selection is not allowed this merger will just make things worst, it is bad enough that we do not have a choice with cable companies, but to allow the creation of an even large monopoly is not in the public interest. Their service is poor now, when you call for service you are told that the problem is only at your location when in fact every one in your neighborhood is out.
