. We have had enough of all the corporate take over of our freedom to choose who we want to support. As stated these two so called want a be giants are and should not be allowed to pull this off. I think that comcats has over extended it's self. Now that radio and TV stations can be purchased in bulk that horrible decision has brought about nothing even close to being in the public interest now the cable tv market. What's next the take over of all our outlets just like Hitler did in Germany or Russia. You wonder why there are so many people starting up Pirate stations that is because they are so upset with the FCC and corporate take over of what was to be a Free medium for the people So please don't send us down the rabit hole. David Petrik
