Allowing Comcast to takeover Time Warner will further erode the dismal quality and the the non-existent customer care which Comcast currently provides. I have constantly had to battle Comcast after they send me equipment I do not order (and charge me for the equipment), raise rates without notification, as well as providing poor quality service (cable TV and internet). Currently Comcast is the only available high-speed internet service available where I live. I am forced to pay for their substandard services. I despise how I and many others are treated and fear that taking over Time Warner will only add problems. Please do not allow this to happen!! April Dahm 711 Rutherford Street Shreveport, LA 71104
