RFDTV was the primary reason that I became a DIRECTV customer and it is still one of the main channels that we enjoy. I'm not sure why you think it necessary to eliminate a channel that not only so many people enjoy but has an extremely loyal fan base. If RFDTV is removed from my choice of channels we will have no choice but to cancel our service and go to DISH network and I will also encourage those who I know are DIRECTV customers to do the same.
